

Mission

To support economic operators through our specialized services to increase their efficiency, safety and quality of their products.

To help our clients effectively control and manage risk in their business processes through our expert services as an independent third party.

To offer independent services that will add significant value to our clients' activities and ensure their business sustainability.

To contribute to the development of the economy through services and innovation, which offers society a long-term and fairer perspective.

To invest in the ongoing and upgrading development of the company's human capital, in the person of our expert employees, as a key factor for the sustainable development of our business.

To promote responsible behavior among employees, partners and suppliers in terms of quality and sustainability.

Vision

To be a responsible and innovative leader in the field of conformity assessment in both domestic and foreign markets.

To establish ourselves as an EPD Program operator applying critical principles of LCA and EPD verification.

To follow the principles of global digitization - using digital technologies with care for the environment, creating reliable, consistent, complete, timely and accessible information in the overall organization of our processes.

To lead a policy to stimulate innovation and use of "green" technologies.

To provide an opportunity for our employees to realize themselves in a safe and inclusive workplace where everyone is treated fairly and with respect

To follow our corporate strategy based on the principle of responsible success - revenue growth combined with uncompromising requirements in the performance of the activity.

Business principles and values

Fair competition is an essential element for the development of the company activity of CTEC EOOD. The company does not take actions contrary to free and fair competition.

Transparent, public, accessible procedures and schemes for assessing conformity in the field of the regulated and voluntary market and not affecting the interests of society for the free movement of goods.

Impartiality and independence are fundamental principles in the performance of conformity assessment activities.

Personal approach and attention to our employees and customers.

Actions focused on caring for the environment and human health.

Building trust in quality, safety and sustainability through reliable, transparent and internationally recognized certification, testing and inspection services.
